Code of Conduct

We the under signed will oversee the troupes training at all times, that no one adult be left alone with troupe or member without at least two other adults being present in the same area.

We will see that each member is picked up from training practice by a responsible adult known to us and that in the event of that person being late without message we will keep the member in a safe place till they are collected.

We will refrain from bad language, arguing, smoking and consuming alcohol whilst on duty at training practice.

We will try to resolve any problems that arise away from the training session and out of ear shot of troupe members, so as not to upset them.

If we have to give a child a lift in our own car, our own child would be the last to be left with us, unless agreed by parents first. That any accident that may happen during training we will inform parents for advice before doing anything, unless we have permission [in case of] in place.

We will be alert to the troupe's well being whilst at practice sessions and other times when the troupe is on duty.

Troupe Name.....

Troupe Leader.....

Troupe Trainer.....

Troupe Helper.....

The Federation will hold the troupe responsible to report to us any suspect person known to them being at one of its events. We can take whatever action that would deem necessary.
